DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 74 and 75 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 75 is indefinite because the process limitation "is operated ..." does not further limit the plant structurally .

Claim 76 is indefinite because the expression "saidthe(sic) recovery plant recovers precious metal by means of of a cyanidation and off-gas from said reactor vessel is used in said cyanidition process" does not further limit the plant structurally.

Allowable Subject Matter

Claims 48 to 73 are allowed.

Claims 74 and 75 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is an examiner's statement of reasons for allowance: The references of record and particularly the patent to Whellock et al (US 5,021,069) which discloses a method of effecting a bioreaction to recover copper but does not disclose a method which includes the steps of subjecting a slurry to the claimed temperature,

supplying a feed containing the claimed oxygen and controlling the dissolved oxygen concentration as claimed. .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
